

GRPD::Field::PhysicsFieldRegistry::operator=

```
graph LR; A[GRPD::Field::PhysicsFieldRegistry::operator=] --> B[GRPD::Field::PhysicsFieldRegistry::PhysicsFieldRegistry]; B --> B;
```

The diagram illustrates a call to the `operator=` method of the `PhysicsFieldRegistry` class. A grey box on the left contains the text `GRPD::Field::PhysicsFieldRegistry::operator=`. A blue arrow points from this box to a white box on the right containing `GRPD::Field::PhysicsFieldRegistry::PhysicsFieldRegistry`. A curved blue arrow above the white box indicates a self-call or a recursive reference to the same class.
