The diagram illustrates a file dependency structure. At the top is a header file, PDCommon/Material/include/ThermalMat.h, enclosed in a gray box. Below it are two source files: PDCommon/Material/src/ThermalMat.cpp on the left and Src/Engine/src/SE_Solve.cpp on the right, both in white boxes. Two blue arrows point from the source files up to the header file, indicating that both source files include this header.
